opportunity

Tapping into a large greenfield opportunity. New to MA members represented ~43% of our total MA approved members with policy effective date of Jan 1, 2022

We estimate our New to MA opportunity as follows: 2021 total enrollment growth for MA enrollments, net of estimated deaths and individuals that left MA (assumed at 5% of 2020 total MA enrollments) (Source: CMS)

We estimate 2021 Switchers within MA as follows: total 2020 MA enrollments (Source: CMS) multiplied by an assumed 15% annual switching rate, based on 11% switching during the AEP and 4% during OEP (Source: Deft).

#### Q1 2022 Financial Highlights

Q1 enrollments and revenue declined YoY reflecting lower telephonic conversions and our decision to reduce investment in agent-driven enrollments in 2022

Online business continued to scale driving significant enrollment growth at attractive unit economics

Q1 2022 revenue declined 22% year-over-year to \$105.3MM; Q1 2022 GAAP net loss was \$(32.7)MM

Adjusted EBITDA<sup>(1)</sup> loss of (\$24.8)MM, compared to \$17.3MM in Q1 2021

Total Medicare approved members declined by 22% year-over-year

Estimated commission generating Medicare Advantage membership of 586K grew 9% year-over-year

Medicare Advantage LTV of \$948 decreased 2% year-over-year from \$968 in Q1 2021

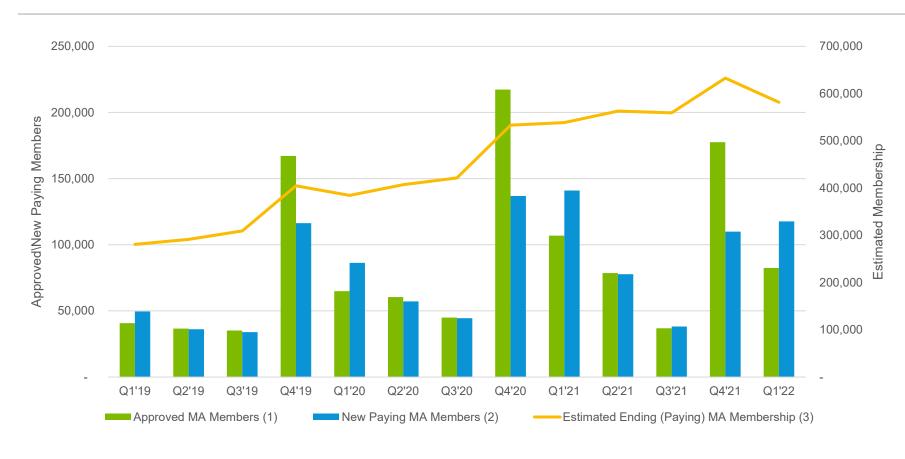

Fully unassisted online submissions for Medicare Advantage grew 50% compared to Q1 2021

<sup>(1)</sup> Adjusted EBITDA is calculated by excluding the paid-in-kind dividends and change in preferred stock redemption value (together "impacts from preferred stock"), interest income and expense, income tax expense (benefit), depreciation and amortization, stock-based compensation expense, restructuring and reorganization charges, amortization of intangible assets, other income (expenses), net, and other non-recurring charges to GAAP net income (loss) attributable to common stockholders. Other non-recurring charges to GAAP net income (loss) attributable to common stockholders may include transaction expenses in connection with capital raising transactions (whether debt, equity or equity-linked) and acquisitions, whether or not consummated, purchase price adjustments and the cumulative effect of a change in accounting principles.

#### Q1 2022 Total Revenue

Total revenue declined 22% on a year-over-year basis due primarily to a \$27.8 million decrease in Medicare commission revenue

In the remainder of 2022, we plan to back on our investment in telephonic enrollments to reduce reliance on our lowest ROI demand generation channels as we implement initiatives to increase the effectiveness of our marketing and telesales organization

Decline in approved Medicare commission revenue during the quarter was partially offset by a yearover-year increase in Medicare advertising revenue of \$4.9 million.
