eHealth, Inc. Announces First Quarter 2017 Results

First Quarter 2017 Overview

- Revenue for the first quarter of 2017 was \$78.9 million, an increase of 7% compared to \$73.8 million for the first quarter of 2016.
- Net income for the first quarter of 2017 was \$33.4 million, an increase of 85% compared to \$18.0 million for the first quarter of 2016.
- Adjusted EBITDA for the first quarter of 2017 was \$35.0 million, an increase of 31% compared to \$26.8 million for the first quarter of 2016.
- Cash provided by operations for the first quarter of 2017 was \$8.4 million compared to cash provided by operations of \$4.7 million for the first quarter of 2016.

MOUNTAIN VIEW, Calif. — April 27, 2017 — eHealth, Inc. (NASDAQ: EHTH), the nation's first and largest private health insurance exchange, announced today its financial results for the first quarter of 2017.

Scott Flanders, chief executive officer of eHealth stated, "Our first quarter results demonstrate the significant revenue and earnings generation potential of our Medicare business as well the operating and financial leverage inherent in our individual and family plan business, which continues to be solidly profitable despite the challenging market environment and declining member base. At the same time, first quarter results reflect the ongoing regulatory challenges in the individual and family market as well as a number of strategic changes we are making, including a shift in our Medicare marketing strategy and a stronger emphasis on Medicare member profitability, each of which impacted our Medicare application volumes during the quarter."

GAAP — First Quarter of 2017 Results

Revenue — Revenue for the first quarter of 2017 totaled \$78.9 million, a 7% increase compared to \$73.8 million for the first quarter of 2016. Commission revenue for the first quarter of 2017 totaled \$76.2 million, a 10% increase compared to \$69.4 million for the first quarter of 2016. Other revenue for the first quarter of 2017 was \$2.8 million, a 38% decrease compared to \$4.5 million for the first quarter of 2016.

Revenue from our Medicare segment was \$58.0 million for the first quarter of 2017, a 33% increase compared to \$43.5 million in the first quarter of 2016. Revenue from our Individual, Family and Small Business segment was \$21.0 million for the first quarter of 2017, a 31% decrease compared to \$30.4 million for the first quarter of 2016.

Income from Operations — Income from operations for the first quarter of 2017 was \$31.8 million compared to \$23.7 million for the first quarter of 2016. Operating margin was 40% for the first quarter of 2017 compared to 32% for the first quarter of 2016.

Pre-tax Income — Pre-tax income for the first quarter of 2017 was \$31.8 million compared to \$23.7 million for the first quarter of 2016.

Provision (Benefit) for Income Taxes — Benefit for income taxes for the first quarter of 2017 was \$1.6 million compared to provision for income taxes of \$5.6 million for the first quarter of 2016.

Net Income — Net income for the first quarter of 2017 was \$33.4 million, or \$1.80 per diluted share, compared to net income of \$18.0 million, or \$0.99 per diluted share, for the first quarter of 2016.

Segment Profit — Profit from our Medicare segment was \$30.7 million for the first quarter of 2017, a 71% increase compared to a profit of \$17.9 million for the first quarter of 2016. Profit from our Individual, Family and Small Business segment was \$11.1 million for the first quarter of 2017, a 29% decrease compared to a profit of \$15.6 million for the first quarter of 2016. Segment profit is calculated as revenue for the applicable segment less Marketing and Advertising, Customer Care and Enrollment, Technology and Content and General and Administrative operating expenses, excluding stock-based compensation,

depreciation and amortization expense and amortization of intangible assets, that are directly attributable to the applicable segment and other indirect Marketing and Advertising, Customer Care and Enrollment and Technology and Content operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, allocated to the applicable segment based on usage. Other indirect general and administrative operating expenses are managed in a corporate shared services environment and, since they are not the responsibility of segment operating management, are not allocated to the operating segments and instead reported within Corporate.

Non-GAAP — First Quarter of 2017 Results

Non-GAAP Operating Income & Non-GAAP Net Income — Non-GAAP operating income for the first quarter of 2017 was \$34.2 million compared to \$25.8 million for the first quarter of 2016. Non-GAAP operating margin for the first quarter of 2017 was 43% compared to 35% for the first quarter of 2016. Non-GAAP net income for the first quarter of 2017 was \$35.8 million, or \$1.93 per diluted share, compared to \$20.1 million, or \$1.10 per diluted share, for the first quarter of 2016.

Non-GAAP operating income, non-GAAP net income and non-GAAP net income per diluted share for the first quarter of 2017 exclude \$2.1 million of stock-based compensation expense and \$0.3 million of amortization of intangible assets. Non-GAAP operating income, non-GAAP net income and non-GAAP net income per diluted share for the first quarter of 2016 excludes \$1.8 million of stock-based compensation expense and \$0.3 million of amortization of intangible assets.

Adjusted EBITDA — Adjusted EBITDA for the first quarter of 2017 was \$35.0 million compared to \$26.8 million for the first quarter of 2016. Adjusted EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, amortization of intangible assets, other income (expense), net and provision (benefit) for income taxes to GAAP net income.

Membership & Submitted Applications

Membership — Total estimated membership as of March 31, 2017 was 892,700 members, a 23% decrease compared to 1,152,900 we reported as of March 31, 2016. Estimated Medicare membership as of March 31, 2017 was 284,900, a 29% increase compared to 220,300 we reported as of March 31, 2016. Estimated individual and family plan membership as of March 31, 2017 was 265,200 members, a 49% decrease compared to 523,000 we reported as of March 31, 2016.

Submitted Applications — Submitted applications for all Medicare products, which includes Medicare Advantage, Medicare Supplement and Prescription Drug Plans was 31,300 applications in first quarter of 2017, a 1% increase compared to 30,900 applications in the first quarter of 2016. Submitted applications for individual and family plan products decreased 70% in the first quarter of 2017 to 22,000 applications covering 30,600 individuals compared to 74,300 applications covering 97,100 individuals in the first quarter of 2016.

Cash — First Quarter 2017

Cash Flows — Net cash provided by operating activities was \$8.4 million for the first quarter of 2017 compared to net cash provided by operating activities of \$4.7 million for the first quarter of 2016.

2017 Guidance

eHealth is reaffirming revenue, Adjusted EBITDA and GAAP net loss per share guidance and providing updated segment revenue and profitability and Non-GAAP net loss per share guidance for the full year ending December 31, 2017 based on information available as of April 27, 2017. These expectations are forward-looking statements and eHealth assumes no obligation to update these statements. Results may be materially different and are affected by the risk factors and uncertainties identified in this release and in eHealth's annual and quarterly filings with the Securities and Exchange Commission.

- Total revenue is expected to be in the range of \$165 million to \$175 million. Revenue from the Medicare segment is expected to be in the range of \$96.5 million to \$101.5 million. Revenue from the Individual, Family and Small Business segment is expected to be in the range of \$68.5 million to \$73.5 million.

- Adjusted EBITDA^(a) is expected to be in the range of \$(14.1) million to \$(16.1) million.

In millions			
GAAP net loss	\$	(27.8)	\$ (29.8)
Stock-based compensation expense		10.6	10.6

Forward-Looking Statements

This press release contains statements that are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. These include statement regarding the significant revenue and earnings generation potential of our Medicare business, operating and financial leverage inherent in our individual and family plan business, profitability of our individual and family plan business despite challenging market environment and declining member base, strategic changes we are making, shift in our Medicare marketing strategy and a stronger emphasis on Medicare member profitability, future events and our guidance for the full year ending December 31, 2017, including our guidance for total revenue, revenue from the Medicare segment, revenue from the Individual, Family and Small Business segment, Adjusted EBITDA, profit (loss) from the Medicare segment, profit (loss) from the Individual, Family and Small Business segment, Corporate shared service expense, GAAP net loss per share and Non-GAAP net loss per share. These forward-looking statements are inherently subject to various risks and uncertainties that could cause actual results to differ materially from the statements made, including risks associated with the impact of healthcare reform; our ability to retain existing members and enroll a large number of new members during the annual healthcare reform open enrollment period and Medicare annual enrollment period; the impact of annual enrollment period for the purchase of individual and family health insurance and its timing on our recognition of revenue; our ability to sell qualified health insurance plans to subsidy-eligible individuals and to enroll subsidy eligible individuals through government-run health insurance exchanges; decreased conversion rates for health insurance exchange enrollments as a result of the federal exchange changes to enrollment; competition, including competition from government-run health insurance exchanges; seasonality of our business and the fluctuation of our operating results; our ability to retain existing members and limit member turnover; changes in consumer behaviors and their selection of individual and family health insurance products, including the selection of products for which we receive lower commissions; a reduction of product offerings among carriers and the resulting impact on our commission revenue; carriers exiting the market of selling individual and family health insurance and the resulting impact on our supply and commission revenue; our ability to execute on our growth strategy in the Medicare and small business health insurance markets; the impact of increased health insurance costs on demand; our ability to timely receive and accurately predict the amount of commission payments from health insurance carriers; timing of commission payments from health insurance carriers; medical loss ratio requirements; delays in our receipt of items required to recognize Medicare revenue; changes in member conversion rates; our ability to accurately estimate membership; our relationships with health insurance carriers; customer concentration and consolidation of the health insurance industry; our success in marketing and selling health insurance plans and our unit cost of acquisition; our ability to hire, train and retain licensed health insurance agents and other employees; the need for health insurance carrier and regulatory approvals in connection with the marketing of Medicare-related insurance products; costs of acquiring new members; scalability of the Medicare business; lack of membership growth and retention rates; consumers satisfaction of our service; changes in competitive landscape; our ability to attract and to convert online visitors into paying members; changes in products offered on our ecommerce platform; changes and reductions in commission rates; maintaining and enhancing our brand identity; our ability to derive desired benefits from investments in our business, including membership growth initiatives; dependence on acceptance of the Internet as a marketplace for the purchase and sale of health insurance; reliance on marketing partners; timing of receipt and accuracy of commission reports; payment practices of health insurance carriers; dependence on our operations in China; changes in laws and regulations, including in connection with healthcare reform and/or with respect to the marketing and sale of Medicare plans; compliance with insurance and other laws and regulations; exposure to security risks; and the performance, reliability and availability of our ecommerce platform and underlying network infrastructure. Other factors that could cause operating, financial and other results to differ are described in eHealth's most recent Quarterly Report on Form 10-Q or Annual Report on Form 10-K filed with the Securities and Exchange Commission and available on the investor relations page of eHealth's website at <http://www.ehealthinsurance.com> and on the Securities and Exchange Commission's website at www.sec.gov. eHealth does not undertake any obligation to update any forward-looking statement to conform the statement to actual results or changes in expectations.

Non-GAAP Financial Information

This press release includes financial measures that are not in accordance with generally accepted accounting principles in the United States (GAAP). To supplement eHealth's condensed consolidated financial statements presented in accordance with GAAP, eHealth presents investors with certain non-GAAP financial measures, including non-GAAP operating income (loss); non-GAAP operating margins; adjusted earnings before interest, taxes, depreciation and amortization (Adjusted EBITDA); non-GAAP net income (loss) and non-GAAP net income (loss) per diluted share.

- Non-GAAP operating income (loss) consists of GAAP operating income (loss) excluding the following items:
 - the effects of expensing stock-based compensation related to stock options and restricted stock units in accordance with FASB ASC Topic 718, and
 - amortization of intangible assets.
- Non-GAAP operating margins are calculated by dividing non-GAAP operating income (loss) by GAAP total revenue.
- Adjusted EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, amortization of intangible assets, other income (expense) and provision (benefit) for income taxes to GAAP net income (loss).

eHealth believes that the presentation of these non-GAAP financial measures provide important supplemental information to management and investors regarding financial and business trends relating to eHealth's financial condition and results of operations. Management believes that the use of these non-GAAP financial measures provides consistency and comparability with eHealth's past financial reports. Management also believes that the items described above provides an additional measure of eHealth's operating results and facilitates comparisons of eHealth's core operating performance against prior periods and business model objectives. This information is provided to investors in order to facilitate additional analyses of past, present and future operating performance and as a supplemental means to evaluate eHealth's ongoing operations. eHealth believes that these non-GAAP financial measures are useful to investors in their assessment of eHealth's operating performance.

Non-GAAP operating income (loss), non-GAAP operating margins, Adjusted EBITDA, non-GAAP net income (loss) and non-GAAP net income (loss) per diluted share are not calculated in accordance with GAAP, and should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Non-GAAP financial measures used in this press release have limitations in that they do not reflect all of the revenue and costs associated with the operations of eHealth's business and do not reflect income tax as determined in accordance with GAAP. As a result, you should not consider these measures in isolation or as a substitute for analysis of eHealth's results as reported under GAAP. eHealth expects to continue to incur the stock-based compensation costs and purchased intangible asset amortization costs described above, and exclusion of these costs, and their related income tax benefits, from non-GAAP financial measures should not be construed as an inference that these costs are unusual or infrequent. eHealth compensates for these limitations by prominently disclosing GAAP operating income (loss), GAAP operating margins, GAAP net income (loss) and GAAP net income (loss) per diluted share and providing investors with reconciliations from eHealth's GAAP operating results to the non-GAAP financial measures for the relevant periods.

The accompanying tables provide more details on the GAAP financial measures that are most directly comparable to the non-GAAP financial measures described above and the related reconciliations between these financial measures.

Note:

We evaluate our business performance and managing our operations as two distinct reporting segments - Medicare and Individual, Family and Small Business.

- (1) The Medicare segment consists primarily of amounts earned from our sale of Medicare-related health insurance plans, including Medicare Advantage, Medicare Supplement and Medicare Part D prescription drug plans, and to a lesser extent, ancillary products sold to our Medicare-eligible customers, including but not limited to, dental, vision, life, short term disability and long term disability insurance, our advertising program that allows Medicare-related carriers to purchase advertising on a separate website developed, hosted and maintained by us and our delivery and sale to third parties of Medicare-related health insurance leads generated by our ecommerce platforms and our marketing activities.
- (2) The Individual, Family and Small Business segment consists primarily of amounts earned from our sale of individual and family and small business health insurance plans and ancillary products sold to our non-Medicare-eligible customers, including but not limited to, dental, vision, life, short term disability and long term disability insurance. To a lesser extent, the Individual, Family and Small Business segment consists of amounts earned from our online sponsorship program that allows carriers to purchase advertising space in specific markets in a sponsorship area on our website, our licensing to third parties the use of our health insurance ecommerce technology and our delivery and sale to third parties of individual and family health insurance leads generated by our ecommerce platforms and our marketing activities.
- (3) Segment profit (loss) is calculated as revenue for the applicable segment less Marketing and Advertising, Customer Care and Enrollment, Technology and Content and General and Administrative operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, that are directly attributable to the applicable segment and other indirect Marketing and Advertising, Customer Care and Enrollment and Technology and Content operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, allocated to the applicable segment based on usage.
- (4) Corporate consists of other indirect General and Administrative operating expenses, excluding stock-based compensation, depreciation and amortization expense, which are managed in a corporate shared services environment and, since they are not the responsibility of segment operating management, are not allocated to the reportable segments.

Notes:

- (1) Medicare-related health insurance applications submitted on our website or through our customer care center during the period, including Medicare Advantage, Medicare Part D prescription drug and Medicare Supplement plans. Applications are counted as submitted when the applicant completes the application and either clicks the submit button on our website or provides verbal authorization to submit the application. The applicant may have additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information. In addition, an applicant may submit more than one application.
- (2) Major medical Individual and Family plan ("IFP") health insurance applications submitted on our website during the period. Applications are counted as submitted when the applicant completes the application, clicks the submit button on our website and submits the application to us. The applicant may have additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information. In addition, an applicant may submit more than one application. We define our IFP offerings as major medical individual and family health insurance plans, which does not include Medicare-related, small business or ancillary plans (primarily consisting of short-term, dental, life, vision, and accident insurance plans).
- (3) Applications for health insurance plans other than Medicare and IFP submitted on our website during the period. Applications for ancillary plans are counted as submitted when the applicant completes the application, clicks the submit button on our website and submits the application to us. Applications for small business plans are counted as submitted when the applicant completes the application, the employees complete their applications, the applicant submits the application to us and we submit the application to the carrier. The applicant may have additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information. In addition, an applicant may submit more than one application.
- (4) Applications for all health insurance plans submitted on our website or through our customer care center during the period. See notes (1), (2) and (3) above for more information as to what constitutes a submitted application.

- (5) Medicare Advantage plan health insurance applications submitted on our website or through our customer care center during the period. Applications are counted as submitted when the applicant completes the application and either clicks the submit button on our website or provides verbal authorization to submit the application. The applicant may have additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information. In addition, an applicant may submit more than one application. Medicare Advantage submitted applications are included in Medicare submitted applications - See Note1 above for more detail.
- (6) Estimated number of members active on Medicare-related health insurance as of the date indicated. See the note below for additional information regarding our calculation of Medicare estimated membership.
- (7) Estimated number of members active on IFP health insurance plans as of the date indicated. See the note below for additional information regarding our calculation of IFP estimated membership.
- (8) Estimated number of members active on insurance plans other than Medicare-related health insurance and IFP health insurance plans as of the date indicated. See the note below for additional information regarding our calculation of other estimated membership.
- (9) Estimated number of members active on all insurance plans as of the date indicated. See the note below for additional information regarding our calculation of total estimated membership.

Note:

Health insurance carriers bill and collect insurance premiums paid by our members. Health insurance carriers do not report to us the number of members that we have as of a given date. The majority of our members who terminate their policies do so by discontinuing their premium payments to the carrier and do not inform us of the cancellation. Also, some of members pay their premiums less frequently than monthly. Given the number of months required to observe non-payment of commissions in order to confirm cancellations, we estimate the number of members who are active on insurance policies as of a specified date. We estimate the number of continuing members on all policies as of a specific date as follows:

- For Medicare-related health insurance plans, we take the number of members for whom we have received or applied a commission payment during the month of estimation.
- For IFP health insurance plans, we take the sum of (i) the number of IFP members for whom we have received or applied a commission payment for a month that is up to six months prior to the date of estimation after reducing that number using historical experience for assumed member cancellations over the period being estimated; and (ii) the number of approved members over that period (after reducing that number by the percentage of members who do not accept their approved policy from the same month of the previous year for estimated member cancellations through the date of the estimate). To the extent we determine we have received substantially all of the commission payments related to a given month during the period being estimated, we will take the number of members for whom we have received or applied a commission payment during the month of estimation.
- For ancillary health insurance plans (such as short-term, dental, vision, accident and student), we take the sum of (i) the number of members for whom we have received or applied a commission payment for a month that is up to three months prior to the date of estimation (after reducing that number using historical experience for assumed member cancellations over the period being estimated); and (ii) the number of approved members over that period (after reducing that number using historical experience for an assumed number of members who do not accept their approved policy from same month of the previous year and for estimated member cancellations through the date of the estimate). To the extent we determine we have received substantially all of the commission payments related to a given month during the period being estimated, we will take the number of members for whom we have received or applied a commission payment during the month of estimation. The one to three-month period varies by insurance product and is largely dependent upon the timeliness of commission payment and related reporting from the related carriers. For small business health insurance plans, we estimate the number of members using the number of initial members at the time the group is approved, and we update this number for changes in membership if such changes are reported to us by the group or carrier in the period it is reported. However, groups generally notify the carrier directly of policy cancellations and increases or decreases in group size without informing us. Health insurance carriers often do not communicate policy cancellation information or group size changes to us. We often are made aware of policy cancellations and group size changes at the time of annual renewal and update our membership statistics accordingly in the period they are reported.

SUMMARY OF SELECTED METRICS (Continued)
(Unaudited)

A member who purchases and is active on multiple standalone insurance plans will be counted as a member more than once. For example, a member who is active on both an individual and family health insurance plan and a standalone dental plan will be counted as two continuing members.

After we have estimated membership for a period, we may receive information from health insurance carriers that would have impacted the estimate if we had received the information prior to the date of estimation. We may receive commission payments or other information that indicates that a member who was not included in our estimates for a prior period was in fact an active member at that time, or that a member who was included in our estimates was in fact not an active member of ours. For instance, we reconcile information carriers provide to us and may determine that we were not historically paid commissions owed to us, which would cause us to have underestimated membership. Conversely, carriers may require us to return commission payments paid in a prior period due to policy cancellations for members we previously estimated as being active. We do not update our estimated membership numbers reported in previous periods. Instead, we reflect updated information regarding our historical membership in the membership estimate for the current period. As a result of the delay in our receipt of information from insurance carriers, actual trends in our membership are most discernible over periods longer than from one quarter to the next. In addition, and as a result of the delay we experience in receiving information about our membership, it is difficult for us to determine with any certainty the impact of current conditions on our membership retention. Health care reform and its impacts as well as other factors could cause the assumptions and estimates that we make in connection with estimating our membership to be inaccurate, which would cause our membership estimates to be inaccurate.
