MOUNTAIN VIEW, Calif.-July 30, 2014-eHealth, Inc. (NASDAQ: EHTH), the nation's first and largest private health insurance exchange, announced today its financial results for the second quarter ended June 30, 2014.

Gary Lauer, chief executive officer of eHealth stated, "The marketplace in which we operate has changed significantly as a result of the Affordable Care Act. In the face of these changes our overall membership has grown, our Individual & Family Plan membership has remained constant year-over-year, and we continued to see strong demand for Medicare and ancillary products. Additionally our overall earnings grew as a result of our flexible business model."

Second Quarter 2014 Results

Revenue-Revenue for the second quarter of 2014 totaled \$42.6 million, a 7% increase compared to revenue of \$39.8 million for the second quarter of 2013. Commission revenue for the second quarter of 2014 totaled \$38.5 million, a 10% increase compared to commission revenue of \$34.9 million for the second quarter of 2013. Medicare revenue was \$7.7 million for the second quarter of 2014, a 32% increase compared to Medicare revenue of \$5.8 million for the second quarter of 2013.

Income from Operations-Operating income for the second quarter of 2014 was \$6.3 million, compared to \$2.0 million for the second quarter of 2013. Operating margins were 15% and 5% in the second quarters of 2014 and 2013, respectively. Non-GAAP operating income for the second quarter of 2014 was \$8.6 million compared to \$4.2 million for the second quarter of 2013. Non-GAAP operating margins were 20% and 10% in the second quarters of 2014 and 2013, respectively. Non-GAAP operating income and margins in the second quarter of 2014 exclude \$1.9 million of stock-based compensation expense and \$0.4 million of intangible asset amortization expense. Submitted applications for Medicare products increased 52% in the second quarter of 2014 to 13,100 applications, compared to 8,600 applications in the second quarter of 2013. Submitted applications for Medicare Advantage products increased 43% in the second quarter of 2014 to 7,300 applications, compared to 5,100 applications in the second quarter of 2013. Approved members for individual and family plan products decreased 6% in the second quarter of 2014 to 95,100 members, compared to 100,700 members in the second quarter of 2013. Total approved members, including individual and family plan, Medicare plan and other product members, increased 9% to 208,000 members in the second quarter of 2014, compared to 190,500 in the second quarter of 2013.

Cash Flows-Cash flows from operations was \$0.3 million for the second quarter of 2014 compared to \$6.6 million for the second quarter of 2013. Cash flows from operations for the second quarter of 2014 were impacted by a \$9.3 million outflow of cash for accrued marketing expenses that were predominantly incurred during the first quarter healthcare reform Open Enrollment Period but paid during the second quarter.

Year-to-Date Results

Revenue-Revenue for the six months ended June 30, 2014 totaled \$93.5 million, a 13% increase compared to revenue of \$83.0 million for the six months ended June 30, 2013. Commission revenue for the six months ended June 30, 2014 totaled \$84.1 million, a 15% increase compared to commission revenue of \$73.2 million for the six months ended June 30, 2013. Medicare revenue was \$22.0 million for the six months ended June 30, 2014, a 38% increase compared to Medicare revenue of \$16.0 million for the six months ended June 30, 2013.

Income from Operations- Operating income for the six months ended June 30, 2014 was \$3.2 million, compared to operating income of \$6.0 million for the six months ended June 30, 2013. Operating margins were 3% for the six month period ended June 30, 2014, compared to 7% for the six-month period ended June 30, 2013.

EBITDA-EBITDA for the six months ended June 30, 2014 was \$10.3 million compared to EBITDA of \$11.5 million for the six months ended June 30, 2013. EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, including intangible asset amortization expense, other expense, net and provision for income taxes to GAAP net income.

Pre-tax Income-Pre-tax income for the six months ended June 30, 2014 was \$3.2 million, compared to \$5.9 million for the six months ended June 30, 2013.

Net Income-Net income for the six months ended June 30, 2014 was \$1.5 million, or \$0.07 per diluted share, compared to net income of \$3.5 million, or \$0.17 per diluted share for the six months ended June 30, 2013. Non-GAAP net income for the six months ended June 30, 2014 was \$4.5 million, or \$0.23 per diluted share, compared to non-GAAP net income of \$6.0 million, or \$0.29 per diluted share for the six months ended June 30, 2013. Non-GAAP net income and non-GAAP net income per diluted share in the six months ended June 30, 2014 exclude \$4.3 million of stock-based compensation expense and \$0.7 million of intangible asset amortization expense, less \$2.0 million for related income tax benefit. Cash Balance-Cash and cash equivalents as of June 30, 2014 totaled \$70.4 million, compared to \$107.1 million as of December 31, 2013. The decrease in cash and cash equivalents reflects \$28.3 million used to repurchase common stock, \$2.3 million used to purchase property and equipment, \$4.5 million to purchase intangible assets and \$5.1 million used in operating activities, partially offset by cash flows provided by financing activities from the exercise of common stock options. The intangible asset purchased during the six months ended June 30, 2014 was the Internet domain name www.Medicare.com.

2014 Guidance

eHealth is revising guidance for the full year ending December 31, 2014 based on information available as of July 30, 2014. These expectations are forward-looking statements and eHealth assumes no obligation to update these statements. Results may be materially different and are affected by the risk factors and uncertainties identified in this release and in eHealth's annual and quarterly filings with the Securities and Exchange Commission.

- Total revenue is expected to be in the range of \$185 million to \$194 million, compared to previous guidance of \$206 million to \$213 million
- Stock-based compensation expense is expected to be in the range of \$8.0 million to \$9.5 million, compared to previous guidance of \$8.5 million to \$10.5 million
- EBITDA* is expected to be in the range of \$13.5 million to \$18.5 million, compared to previous guidance of \$18.0 million to \$22.5 million
- Non-GAAP net income per diluted share** is expected to be in the range of \$0.30 to \$0.43 per share, compared to previous guidance of \$0.43 to \$0.51 per share

* EBITDA is calculated by adding stock-based compensation expense, depreciation and amortization expense, including intangible asset amortization expense, other (income) expense, net and provision for income taxes to GAAP net income.

** Non-GAAP net income per diluted share is calculated by excluding stock-based compensation expense, intangible asset amortization expense and the estimated tax benefit relating to these expenses.

Forward-Looking Statements

This press release contains statements that are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. These include statements regarding future events; future performance; the utility to our investors of the non-GAAP financial measures presented in this release; and our guidance for total revenue, stock-based compensation expense, EBITDA and non-GAAP net income per diluted share for the year ending December 31, 2014. These forward-looking statements are inherently subject to various risks and uncertainties that could cause actual results to differ materially from the statements made, including risks associated with the impact of healthcare reform and medical loss ratio requirements; changes in consumer behaviors and their selection of individual and family health insurance products, including the selection of products for which we receive lower commissions; changes in competitive landscape and product offerings among carriers and the resulting impact on eHealth's commission revenue; increased competition from state and federal insurance exchanges; the impact of increased health insurance costs on demand; eHealth's ability to retain existing members and limit member turnover;

eHealth's ability to attract new members and to convert online visitors into paying members; eHealth's ability to timely receive and accurately predict the amount of commission payments from health insurance carriers; changes in member conversion rates; eHealth's ability to sell qualified health insurance plans to subsidy-eligible individuals; eHealth's ability to align its expenses with its revenue; the impact of annual enrollment periods for the purchase of individual and family health insurance and its timing on eHealth's recognition of revenue; eHealth's ability to accurately estimate membership; the evolving nature of Affordable Care Act implementation; eHealth's ability to enter into and maintain relationships with health insurance carriers; eHealth's success in marketing and selling health insurance plans; eHealth's ability to hire, train and retain licensed health insurance agents; the need for health insurance carrier and regulatory approvals in connection with the marketing of Medicare-related insurance products; costs of acquiring new members; lack of membership growth and retention rates; changes in products offered on eHealth's ecommerce platform; changes in commission rates; maintaining and enhancing eHealth's brand identity; eHealth's ability to derive desired benefits from its investments in its business, including its membership growth initiatives and development of private exchange capabilities; system failures, capacity constraints, data loss or online commerce security risks; dependence on acceptance of the Internet as a marketplace for the purchase and sale of health insurance; dependence upon Internet search engines; reliance on marketing partners; timing of receipt and accuracy of commission reports; payment practices of health insurance carriers; competition; dependence on our operations in China; success of eHealth's sponsorship and advertising business; protection of intellectual property and defense against intellectual property rights claims; legal liability and regulatory penalties; changes in our management and key employees; seasonality; maintenance of relationships with business development partners; maintenance of proper and effective internal controls; impact of provisions for income taxes; changes in laws and regulations, including in connection with healthcare reform and/or with respect to the marketing and sale of Medicare plans; compliance with insurance and other laws and regulations; exposure to security risks; and the performance, reliability and availability of eHealth's ecommerce platform and underlying network infrastructure. Other factors that could cause operating, financial and other results to differ are described in eHealth's most recent Quarterly Report on Form 10-Q or Annual Report on Form 10-K filed with the Securities and Exchange Commission and available on the investor relations page of eHealth's website at <http://www.ehealthinsurance.com> and on the Securities and Exchange Commission's website at www.sec.gov. eHealth does not undertake any obligation to update any forward-looking statement to conform the statement to actual results or changes in expectations.

Non-GAAP Financial Information

This press release includes financial measures that are not in accordance with generally accepted accounting principles in the United States (GAAP). To supplement eHealth's condensed consolidated financial statements presented in accordance with GAAP, eHealth presents investors with certain non-GAAP financial measures, including non-GAAP operating income; non-GAAP operating margins; earnings before interest, taxes, depreciation and amortization (EBITDA); non-GAAP net income and non-GAAP net income per diluted share.

- Non-GAAP operating income consists of GAAP operating income excluding the following items:
 - the effects of expensing stock-based compensation related to stock options and restricted stock units in accordance with FASB ASC Topic 718, and
 - intangible asset amortization expense.
- Non-GAAP operating margins are calculated by dividing non-GAAP operating income by GAAP total revenue.
- EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, including intangible asset amortization expense, other expense, net and provision for income taxes to GAAP net income.
- Non-GAAP net income consists of GAAP net income excluding the following items:
 - the effects of expensing stock-based compensation related to stock options and restricted stock units in accordance with FASB ASC Topic 718,
 - intangible asset amortization expense, and
 - the related income tax benefits of these excluded expenses.
- Non-GAAP net income per diluted share is calculated by dividing non-GAAP net income by GAAP weighted average diluted shares outstanding.

eHealth believes that the presentation of these non-GAAP financial measures provide important supplemental information to management and investors regarding financial and business trends relating to eHealth's financial condition and results of operations. Management believes that the use of these non-GAAP financial measures provides consistency and comparability with eHealth's past financial reports. Management also believes that the items described above provides an additional measure of eHealth's operating results and facilitates comparisons of eHealth's core operating performance against prior periods and business model objectives. This information is provided to investors in order to facilitate additional analyses of past, present

and future operating performance and as a supplemental means to evaluate eHealth's ongoing operations. eHealth believes that these non-GAAP financial measures are useful to investors in their assessment of eHealth's operating performance.

Non-GAAP operating income, non-GAAP operating margins, EBITDA, non-GAAP net income and non-GAAP net income per diluted share are not calculated in accordance with GAAP, and should be considered supplemental to, and not as a substitute for, or superior to, financial measures calculated in accordance with GAAP. Non-GAAP financial measures used in this press release have limitations in that they do not reflect all of the revenue and costs associated with the operations of eHealth's business and do not reflect income tax as determined in accordance with GAAP. As a result, you should not consider these measures in isolation or as a substitute for analysis of eHealth's results as reported under GAAP. eHealth expects to continue to incur the stock-based compensation costs and purchased intangible asset amortization costs described above, and exclusion of these costs, and their related income tax benefits, from non-GAAP financial measures should not be construed as an inference that these costs are unusual or infrequent. eHealth compensates for these limitations by prominently disclosing GAAP operating income, GAAP operating margins, GAAP net income and GAAP net income per diluted share and providing investors with reconciliations from eHealth's GAAP operating results to the non-GAAP financial measures for the relevant periods.

The accompanying tables provide more details on the GAAP financial measures that are most directly comparable to the non-GAAP financial measures described above and the related reconciliations between these financial measures.

Notes:

- (1) Net cash used in operating activities for the period from the condensed consolidated statements of cash flows.
IFP applications submitted on eHealth's website during the period. Applications are counted as submitted when the applicant completes the application, provides a method for payment and clicks the submit button on our website and submits the application to us. The applicant generally has additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information and providing an electronic signature. In addition, an applicant may submit more than one application. We include applications for IFP products for which we receive commissions as well as other forms of payment. We define our "IFP" offerings as major medical individual and family health insurance plans, which does not include small business, short-term major medical, stand-alone dental, life, student or Medicare-related health insurance plans.
- (2) New IFP members reported to eHealth as approved during the period. Some members that are approved by a carrier do not accept the approval and therefore do not become paying members.
- (3) New members for all products reported to eHealth as approved during the period. Some members that are approved by a carrier do not accept the approval and therefore do not become paying members.
- (4) Commission revenue (from all sources) recognized during the period from the condensed consolidated statements of income.
Calculated as commission revenue recognized during the period (see note (5) above) divided by average estimated membership for the period (calculated as beginning and ending estimated membership for all products for the period, divided by two). See the note below and our *Form 10-K for the year ended December 31, 2013 - Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations - Summary of Selected Metrics* for additional information regarding our calculation of estimated membership.
- (5) Estimated number of members active on IFP insurance policies as of the date indicated. See the note below and our *Form 10-K for the year ended December 31, 2013 - Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations - Summary of Selected Metrics* for additional information regarding our calculation of estimated membership.
- (6) Estimated number of members active on Medicare insurance policies as of the date indicated. See our *Form 10-K for the year ended December 31, 2013 - Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations - Summary of Selected Metrics* for additional information regarding our calculation of estimated membership.
- (7) Estimated number of members active on insurance policies other than IFP and Medicare policies as of the date indicated. See our *Form 10-K for the year ended December 31, 2013 - Item 7 - Management's Discussion and Analysis of Financial Condition and Results of Operations - Summary of Selected Metrics* for additional information regarding our calculation of estimated membership.

Note: Historically, to calculate the estimated number of members active on individual and family plan insurance policies, we have taken the sum of (i) the number of IFP members for whom we have received or applied a commission payment for the month that is six months prior to the date of estimation after reducing that number using historical experience for assumed member cancellations over the six-month period and (ii) the number of approved members over the six-month period prior to the date of estimation after reducing that number using historical experience for an assumed number of members who do not accept their approved policy and for estimated member cancellations through the date of the estimate. Historically, the percentage of our members who did not accept their approved policy remained at a relatively constant rate. However, we have observed an increase in the number of members who ultimately did not accept their approved policies, compared to our historical experience, for policies that were submitted in the quarter ended March 31, 2014. This lower acceptance rate was used to estimate the assumed number of members who did not accept their approved policy for the six months ended June 30, 2014. As a result, for the purpose of estimating the number of members active on individual and family plan insurance policies as of June 30, 2014, we have assumed and applied a higher percentage of members who do not accept their approved policy as compared to the assumption we used in prior periods. Further, as disclosed in our earnings release and Form 10-Q for the quarter ended March 31, 2014, we estimated a potentially higher membership churn as compared to historical levels on January 1, 2014 due to policy terminations on December 31, 2013 as a result of the Affordable Care Act. As a result, consistent with our estimation process for the quarter ended March 31, 2014, we have used January 1, 2014 (rather than December 31, 2013) as the beginning of our six-month period for purpose of estimating the number of members active on individual and family plan insurance policies as of June 30, 2014

After we have estimated membership for a period, we may receive information from health insurance carriers that would have impacted the estimate if we had received the information prior to the date of estimation. We may receive commission payments or other information that indicates that a member who was not included in our estimates for a prior period was in fact an active member at that time, or that a member who was included in our estimates was in fact not an active member of ours. For instance, we reconcile

information carriers provide to us and may determine that we were not historically paid commissions owed to us, which would cause us to have underestimated membership. Conversely, carriers may require us to return commission payments paid in a prior period due to policy cancellations for members we previously estimated as being active. We reflect updated information regarding our membership in the membership estimate for the period when we receive such updated information, if applicable. As a result of the delay in our receipt of information from insurance carriers, actual trends in our membership are most discernible over periods longer than from one quarter to the next. In addition, and as a result of the delay we experience in receiving information about our membership, it is difficult for us to determine with any certainty the impact of current conditions such as health care reform implementation on our membership retention. Health care reform and other factors could cause the assumptions and estimates that we make in connection with estimating our membership to be inaccurate, which would cause our membership estimates to be inaccurate.
