Explanatory Note

On February 21, 2019, eHealth, Inc. issued an earnings release announcing its financial results for the quarter and year ended December 31, 2018. A copy of the earnings release was furnished with a Current Report on Form 8-K filed on February 21, 2019 (the “Original 8-K”). This Amendment No. 1 on Form 8-K/A is being filed to amend Items 2.02 and 9.01 of the Original 8-K, solely for the purpose of correcting certain errors related to the information provided for (i) the non-GAAP net income and non-GAAP net income per diluted share for the three months ended December 31, 2018 and (ii) the guidance for the full year ending December 31, 2019 for non-GAAP net income per diluted share, as described below.

Section 2 - Financial Information

Item 2.02 Results of Operations and Financial Condition.

On February 21, 2019, eHealth, Inc. (the “Company”) issued an earnings release announcing its financial results for the quarter and year ended December 31, 2018 (the “Original Press Release”). Information regarding the non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018 included incorrect adjustments for the impact of income taxes in non-GAAP net income based on the revised effective tax rate for the three months ended December 31, 2018. Additionally, the 2019 guidance for non-GAAP net income per diluted share in the body of the Original Press Release and expected non-GAAP net income in the Reconciliation of Non-GAAP Financial Measures to Guidance incorrectly excluded depreciation and amortization. On February 25, 2019, the Company issued a corrected earnings release revising such information, as corrected (the “Corrected Press Release”). The misstatements did not impact the Company’s GAAP financial statements.

A copy of the Corrected Press Release, which indicates the corrected non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018, and guidance for 2019 non-GAAP net income per diluted share and expected non-GAAP net income, is furnished as Exhibit 99.1 to this Amendment No. 1 on Form 8-K/A and is incorporated herein by reference. For convenience, the corrected non-GAAP net income and non-GAAP income per diluted share for the fourth quarter of 2018, and the guidance for 2019 non-GAAP net income per diluted share are also excerpted below (with original reported non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018, and the original guidance for 2019 non-GAAP net income per diluted share struck and the corrected non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018, and the corrected guidance for 2019 non-GAAP net income per diluted share in bold type and underlined).

Non-GAAP net income for the fourth quarter of 2018 was ~~\$35.7~~ **\$33.6** million, or ~~\$1.72~~ **\$1.61** non-GAAP net income per diluted share, compared to non-GAAP net income of \$30.2 million, or \$1.57 non-GAAP net income per diluted share, for the fourth quarter of 2017.

Non-GAAP net income per diluted share^(a) is expected to be in the range of ~~\$1.11~~ **\$1.22** to ~~\$1.25~~ **\$1.33** per share.

The information in Item 2.02 of this Current Report on Form 8-K/A and the exhibits attached hereto are intended to be “furnished” and shall not be deemed “filed” for purposes of Section 18 of the Securities Exchange Act of 1934, as amended. Except as shall be expressly set forth by specific reference in such filing, the information contained herein and in the accompanying exhibits shall not be incorporated by reference into any filing with the Securities and Exchange Commission made by the Company, whether made before or after the date hereof, regardless of any general incorporation language in such filing.

<u>Exhibit No.</u>	<u>Description</u>
99.1	<u>Corrected Press Release, Dated February 25, 2019 (eHealth Announces 2018 Fourth Quarter and Fiscal 2018 Results)</u>

eHealth, Inc. (NASDAQ: EHTH), the nation's leading private online health insurance exchange, is correcting misstatements regarding non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018, and guidance for non-GAAP net income per diluted share for the full year ending December 31, 2019 in its earnings press release for the quarter and year ended December 31, 2018 that was issued on February 21, 2019. The misstatements did not impact eHealth's GAAP financial statements. The non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018 in the section titled "Non-GAAP Fourth Quarter of 2018 Results" and the guidance for non-GAAP net income per diluted share for the full year ending December 31, 2019 in the section titled "2019 Guidance" of the February 21, 2019 press release are corrected as set forth below: --Non-GAAP net income per diluted share for the fourth quarter of 2018 was \$35.7 million, or \$1.72 non-GAAP net income per diluted share. --Non-GAAP net income per diluted share for the full year ending December 31, 2019 is expected to be in the range of \$1.11 to \$1.25 per share. The corrected release reads:

eHealth, Inc. Announces Fourth Quarter and Fiscal 2018 Results

- Net income for the fourth quarter of 2018 was \$26.1 million compared to \$28.0 million for the fourth quarter of 2017.

- Adjusted EBITDA for the fourth quarter of 2018 was \$51.9 million, an increase of 107% compared to \$25.1 million for the fourth quarter of 2017.
- Net cash used in operations for the fourth quarter of 2018 was \$8.7 million compared to \$10.1 million net cash used in operations for the fourth quarter of 2017.

SANTA CLARA, California — February 21, 2019 — eHealth, Inc. (NASDAQ: EHTH), a leading private online health insurance exchange, announced today its financial results for the fourth quarter and fiscal year ended December 31, 2018.

Scott Flanders, chief executive officer of eHealth stated, “2018 was a defining year for eHealth in validating our vision and growth strategy for the Medicare market. We delivered the strongest Medicare Annual Enrollment Period in the company’s history, achieved a number of important executional milestones and reported financial results which significantly exceeded our expectations. I am proud of these accomplishments.”

GAAP — Fourth Quarter of 2018 Results

Revenue — Revenue for the fourth quarter of 2018 totaled \$134.9 million, a 62% increase compared to \$83.1 million for the fourth quarter of 2017. Commission revenue for the fourth quarter of 2018 totaled \$122.2 million, a 61% increase compared to \$76.1 million for the fourth quarter of 2017. Other revenue for the fourth quarter of 2018 was \$12.7 million, a 79% increase compared to \$7.1 million for the fourth quarter of 2017.

Revenue from our Medicare segment was \$121.6 million for the fourth quarter of 2018, a 74% increase compared to \$69.9 million for the fourth quarter of 2017. Revenue from our Individual, Family and Small Business segment was \$13.3 million for the fourth quarter of 2018, a 1% increase compared to \$13.2 million for the fourth quarter of 2017.

Income from Operations — Income from operations for the fourth quarter of 2018 was \$41.6 million compared to income from operations of \$20.8 million for the fourth quarter of 2017. Operating margin was 31% for the fourth quarter of 2018 compared to 25% for the fourth quarter of 2017.

Pre-tax Income — Pre-tax income for the fourth quarter of 2018 was \$41.6 million compared to pre-tax income of \$21.1 million for the fourth quarter of 2017.

Provision (Benefit) for Income Taxes — Provision for income taxes for the fourth quarter of 2018 was \$15.6 million compared to benefit for income taxes of \$6.9 million for the fourth quarter of 2017.

Net Income — Net income for the fourth quarter of 2018 was \$26.1 million, or \$1.25 net income per diluted share, compared to net income of \$28.0 million, or \$1.47 net income per diluted share, for the fourth quarter of 2017. Net income for the fourth quarter of 2018 includes a non-cash charge of \$6 million related to an increase in fair value of the earnout liability assumed in connection with eHealth’s acquisition of GoMedigap. The increase is driven primarily by eHealth’s share price appreciation since the transaction closed in January of 2018. The share price appreciation has increased the value of the equity-based portion of the earnout consideration owed to the former holders of GoMedigap equity interests.

Segment Profit — Profit from our Medicare segment was \$58.7 million for the fourth quarter of 2018, a 90% improvement compared to profit of \$30.9 million for the fourth quarter of 2017. Profit from our Individual, Family and Small Business segment was \$3.5 million for the fourth quarter of 2018, a 208% increase compared to \$1.1 million for the fourth quarter of 2017.

Non-GAAP — Fourth Quarter of 2018 Results

Non-GAAP Operating Income & Non-GAAP Net Income — Non-GAAP operating income for the fourth quarter of 2018 was \$51.3 million compared to non-GAAP operating income of \$24.4 million for the fourth quarter of 2017. Non-GAAP operating margin for the fourth quarter of 2018 was 38% compared to 29% for the fourth quarter of 2017. Non-GAAP net income for the fourth quarter of 2018 was \$35.7 million, or \$1.72 non-GAAP net income per diluted share, compared to non-GAAP net income of \$30.2 million, or \$1.57 non-GAAP net income per diluted share, for the fourth quarter of 2017.

Non-GAAP operating income, non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2018 exclude \$3.1 million of stock-based compensation expense, a \$6.0 million charge related to an increase in the fair value of our earnout liability, and \$0.5 million of amortization of intangible assets. Non-GAAP operating net income, non-GAAP net income and non-GAAP net income per diluted share for the fourth quarter of 2017 exclude \$2.7 million of stock-based

compensation expense, \$0.6 million of acquisition costs related to our acquisition of GoMedigap, and \$0.3 million of amortization of intangible assets.

Adjusted EBITDA — Adjusted EBITDA for the fourth quarter of 2018 was \$51.9 million compared to \$25.1 million for the fourth quarter of 2017. Adjusted EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, acquisition costs related to our acquisition of GoMedigap, restructuring charge, amortization of intangible assets, change in fair value of earnout liability, other income (expense), net, and provision (benefit) for income taxes to GAAP net income.

2019 Guidance

eHealth's guidance for the full year ending December 31, 2019 is based on information available as of February 21, 2019. These expectations are forward-looking statements, and eHealth assumes no obligation to update these statements. Actual results may be materially different and are affected by the risk factors and uncertainties identified in this release and in eHealth's annual and quarterly filings with the Securities and Exchange Commission.

The following guidance is for the full year ending December 31, 2019.

- Total revenue is expected to be in the range of \$290 million to \$310 million. Revenue from the Medicare segment is expected to be in the range of \$256 million to \$272 million. Revenue from the Individual, Family and Small Business segment is expected to be in the range of \$34 million to \$38 million.
- GAAP net income per diluted share for 2019 is expected to be in the range of \$0.60 to \$0.79 per share.
- Non-GAAP net income per diluted share^(a) is expected to be in the range of \$1.11 to \$1.25 per share.
- GAAP net income is expected to be in the range of \$16.3 million to \$21.3 million.
- Adjusted EBITDA^(b) is expected to be in the range of \$45 million to \$50 million.
- 2019 Medicare segment profit^(c) is expected to be in the range of \$80 million to \$84 million and Individual, Family and Small Business segment profit is expected to be breakeven to \$1 million.
- Corporate^(d) shared service expenses, excluding stock-based compensation and depreciation and amortization expense, is expected to be approximately \$35 million.
- Cash used in operations is expected to be in the range of \$17 million to \$20 million and cash used for capital expenditures is expected to be \$13 million to \$14 million.

(a) Non-GAAP net income per diluted share is calculated by adding stock-based compensation expense, change in fair value of earnout liability, acquisition costs, restructuring charges, intangible asset amortization expense and the income tax effect of these adjustments to GAAP net income.

(b) Adjusted EBITDA is calculated by adding stock-based compensation, depreciation and amortization expense, restructuring charges, acquisition costs, amortization of intangible assets, other income (expense), net and provision for income taxes to GAAP net income.

(c) Segment profit is calculated as revenue for the applicable segment less Marketing and Advertising, Customer Care and Enrollment, Technology and Content and General and Administrative operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, that are directly attributable to the applicable segment and other indirect Marketing and Advertising, Customer Care and Enrollment and Technology and Content operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, allocated to the applicable segment based on usage.

(d) Corporate consists of other indirect General and Administrative operating expenses, excluding stock-based compensation and depreciation and amortization expense, which are managed in a corporate shared services environment and, since they are not the responsibility of segment operating management, are not allocated to the reportable segments.

These include statement regarding our vision and growth strategy for the Medicare market, our estimates regarding total membership, Medicare membership, Individual and Family plan membership, ancillary and small business membership, our estimates regarding constrained lifetime values of commissions per member and constraints on lifetime value by product category, and our guidance for the full year ending December 31, 2019, including our guidance for total revenue, revenue from the Medicare segment, revenue from the Individual, Family and Small Business segment, GAAP net income, Adjusted EBITDA, profit from the Medicare segment, profit from the Individual, Family and Small Business segment, Corporate shared service expense, GAAP net income per share, Non-GAAP net income per share, cash used in operations and cash used for capital expenditures.

These forward-looking statements are inherently subject to various risks and uncertainties that could cause actual results to differ materially from the statements made. In particular, we are required by the revenue recognition standard to make numerous assumptions that are based upon historical trends and management judgment. These assumptions may change over time and have a material impact on our revenue recognition, guidance, and results of operations. Please review the assumptions stated in this section carefully as well as the disclosures about our implementation of the revenue recognition standard in our Form 10-Q for the fiscal quarters ended March 31, 2018, June 30, 2018 and September 30, 2018, as well as the recast consolidated financial statements for each of the three years in the period ended December 31, 2017 reflecting the adoption of the new revenue recognition standard in our Form 8-K filed on December 17, 2018.

The risks and uncertainties that could cause our results to differ materially from those expressed or implied by such forward-looking statements include risks associated with the impact of healthcare reform; our ability to retain existing members and enroll a large number of new members during the annual healthcare reform open enrollment period and Medicare annual enrollment period; the impact of annual enrollment period for the purchase of individual and family health insurance and its timing on our recognition of revenue; our ability to sell qualified health insurance plans to subsidy-eligible individuals and to enroll subsidy eligible individuals through government-run health insurance exchanges; changes in laws and regulations, including in connection with healthcare reform; our ability to successfully make and integrate acquisitions; our health insurance benefits and packages' ability to meet individual customer's specific health insurance and price needs; the success of our sale of short-term health insurance and benefit packages; our ability to comply with CMS guidance and impact on conversion rates as a result of the federal exchange changes to enrollment; competition, including competition from government-run health insurance exchanges; seasonality of our business and the fluctuation of our operating results; our ability to retain existing members and limit member turnover; changes in consumer behaviors and their selection of individual and family health insurance products, including the selection of products for which we receive lower commissions; a reduction of product offerings among carriers and the resulting impact on our commission revenue; carriers exiting the market of selling individual and family health insurance and the resulting impact on our supply and commission revenue; our ability to execute on our growth strategy in the Medicare and small business health insurance markets; the impact of increased health insurance costs on demand; our ability to timely receive and accurately predict the amount of commission payments from health insurance carriers; timing of commission payments from health insurance carriers; medical loss ratio requirements; delays in our receipt of items required to recognize Medicare revenue; changes in member conversion rates; our ability to accurately estimate membership and lifetime value of commissions; our relationships with health insurance carriers; customer concentration and consolidation of the health insurance industry; our success in marketing and selling health insurance plans and our unit cost of acquisition; our ability to hire, train and retain licensed health insurance agents and other employees; the need for health insurance carrier and regulatory approvals in connection with the marketing of Medicare-related insurance products; costs of acquiring new members; scalability of the Medicare business; lack of membership growth and retention rates; consumer satisfaction of our service; changes in competitive landscape; our ability to attract and to convert online visitors into paying members; changes in products offered on our ecommerce platform; changes and reductions in commission rates; our ability to maintain and enhance our brand identity; our ability to derive desired benefits from investments in our business, including membership growth initiatives; dependence on acceptance of the Internet as a marketplace for the purchase and sale of health insurance; reliance on marketing partners; the impact of our direct-to-consumer email, telephone and television marketing efforts; timing of receipt and accuracy of commission reports; payment practices of health insurance carriers; dependence on our operations in China; the restrictions in our debt obligations; compliance with insurance and other laws and regulations; exposure to security risks and our ability to safeguard sensitive data; and the performance, reliability and availability of our ecommerce platform and underlying network infrastructure. Other factors that could cause operating, financial and other results to differ are described in eHealth's most recent Quarterly Report on Form 10-Q or Annual Report on Form 10-K filed with the Securities and Exchange Commission and available on the investor relations page of eHealth's website at <http://www.ehealthinsurance.com> and on the Securities and Exchange Commission's website at www.sec.gov.

All forward-looking statements in this press release are based on information available to eHealth as of the date hereof, and eHealth does not assume any obligation to update the forward-looking statements provided to reflect events that occur or circumstances that exist after the date on which they were made, except as required by law.

Non-GAAP Financial Information

This press release contains statements that are forward-looking statements as defined within the Private Securities Litigation Reform Act of 1995. These include statement regarding our vision and growth strategy for the Medicare market, our estimates regarding total membership, Medicare membership, Individual and Family plan membership, ancillary and small business membership, our estimates regarding constrained lifetime values of commissions per member and constraints on lifetime value by product category, and our guidance for the full year ending December 31, 2019, including our guidance for total revenue, revenue from the Medicare segment, revenue from the Individual, Family and Small Business segment, GAAP net income, Adjusted EBITDA, profit from the Medicare segment, profit from the Individual, Family and Small Business segment, Corporate shared service expense, GAAP net income per share, Non-GAAP net income per share, cash used in operations and cash used for capital expenditures.

These forward-looking statements are inherently subject to various risks and uncertainties that could cause actual results to differ materially from the statements made. In particular, we are required by the revenue recognition standard to make numerous assumptions that are based upon historical trends and management judgment. These assumptions may change over time and have a material impact on our revenue recognition, guidance, and results of operations. Please review the assumptions stated in this section carefully as well as the disclosures about our implementation of the revenue recognition standard in our Form 10-Q for the fiscal quarters ended March 31, 2018, June 30, 2018 and September 30, 2018, as well as the recast consolidated financial statements for each of the three years in the period ended December 31, 2017 reflecting the adoption of the new revenue recognition standard in our Form 8-K filed on December 17, 2018.

The risks and uncertainties that could cause our results to differ materially from those expressed or implied by such forward-looking statements include risks associated with the impact of healthcare reform; our ability to retain existing members and enroll a large number of new members during the annual healthcare reform open enrollment period and Medicare annual enrollment period; the impact of annual enrollment period for the purchase of individual and family health insurance and its timing on our recognition of revenue; our ability to sell qualified health insurance plans to subsidy-eligible individuals and to enroll subsidy eligible individuals through government-run health insurance exchanges; changes in laws and regulations, including in connection with healthcare reform; our ability to successfully make and integrate acquisitions; our health insurance benefits and packages' ability to meet individual customer's specific health insurance and price needs; the success of our sale of short-term health insurance and benefit packages; our ability to comply with CMS guidance and impact on conversion rates as a result of the federal exchange changes to enrollment; competition, including competition from government-run health insurance exchanges; seasonality of our business and the fluctuation of our operating results; our ability to retain existing members and limit member turnover; changes in consumer behaviors and their selection of individual and family health insurance products, including the selection of products for which we receive lower commissions; a reduction of product offerings among carriers and the resulting impact on our commission revenue; carriers exiting the market of selling individual and family health insurance and the resulting impact on our supply and commission revenue; our ability to execute on our growth strategy in the Medicare and small business health insurance markets; the impact of increased health insurance costs on demand; our ability to timely receive and accurately predict the amount of commission payments from health insurance carriers; timing of commission payments from health insurance carriers; medical loss ratio requirements; delays in our receipt of items required to recognize Medicare revenue; changes in member conversion rates; our ability to accurately estimate membership and lifetime value of commissions; our relationships with health insurance carriers; customer concentration and consolidation of the health insurance industry; our success in marketing and selling health insurance plans and our unit cost of acquisition; our ability to hire, train and retain licensed health insurance agents and other employees; the need for health insurance carrier and regulatory approvals in connection with the marketing of Medicare-related insurance products; costs of acquiring new members; scalability of the Medicare business; lack of membership growth and retention rates; consumer satisfaction of our service; changes in competitive landscape; our ability to attract and to convert online visitors into paying members; changes in products offered on our ecommerce platform; changes and reductions in commission rates; our ability to maintain and enhance our brand identity; our ability to derive desired benefits from investments in our business, including membership growth initiatives; dependence on acceptance of the Internet as a marketplace for the purchase and sale of health insurance; reliance on marketing partners; the impact of our direct-to-consumer email, telephone and television marketing efforts; timing of receipt and accuracy of commission reports; payment practices of health insurance carriers; dependence on our operations in China; the restrictions in our debt obligations; compliance with insurance and other laws and regulations; exposure to security risks and our ability to safeguard sensitive data; and the performance, reliability and availability of our

ecommerce platform and underlying network infrastructure. Note:

We evaluate our business performance and manage our operations as two distinct reporting segments:

- Medicare and
- Individual, Family and Small Business.

- (1) The Medicare segment consists primarily of amounts earned from our sale of Medicare-related health insurance plans, including Medicare Advantage, Medicare Supplement and Medicare Part D prescription drug plans, and to a lesser extent, ancillary products sold to our Medicare-eligible customers, including but not limited to, dental, vision, life, short term disability and long term disability insurance, our advertising program that allows Medicare-related carriers to purchase advertising on a separate website developed, hosted and maintained by us and our delivery and sale to third parties of Medicare-related health insurance leads generated by our ecommerce platforms and our marketing activities.
- (2) The Individual, Family and Small Business segment consists primarily of amounts earned from our sale of individual and family and small business health insurance plans and ancillary products sold to our non-Medicare-eligible customers, including but not limited to, dental, vision, life, short term disability and long term disability insurance. To a lesser extent, the Individual, Family and Small Business segment consists of amounts earned from our online sponsorship program that allows carriers to purchase advertising space in specific markets in a sponsorship area on our website, our licensing to third parties the use of our health insurance ecommerce technology and our delivery and sale to third parties of individual and family health insurance leads generated by our ecommerce platforms and our marketing activities.
- (3) Segment profit is calculated as revenue for the applicable segment less Marketing and Advertising, Customer Care and Enrollment, Technology and Content and General and Administrative operating expenses, excluding stock-based compensation, depreciation and amortization expense, restructuring charges, change in fair value of earnout liability, acquisition costs, and amortization of intangible assets, that are directly attributable to the applicable segment and other indirect Marketing and Advertising, Customer Care and Enrollment and Technology and Content operating expenses, excluding stock-based compensation, depreciation and amortization expense and amortization of intangible assets, allocated to the applicable segment based on usage.
- (4) Corporate consists of other indirect General and Administrative operating expenses, excluding stock-based compensation, depreciation and amortization expense, which are managed in a corporate shared services environment and, because they are not the responsibility of segment operating management, are not allocated to the reportable segments.

(1) We define our Individual and Family Plan offerings as major medical individual and family health insurance plans, which does not include Medicare-related, small business or ancillary plans. Individual and family health insurance plans include both Qualified and Non-Qualified plans. Qualified health plans are individual and family health insurance plans that meet the requirements of the Affordable Care Act and are offered through the government-run health insurance exchange in the relevant jurisdiction. Non-Qualified health plans are individual and family health insurance plans that meet the requirements of the Affordable Care Act and are not offered through the exchange in the relevant jurisdiction. Individuals who purchase Non-Qualified health plans cannot receive a subsidy in connection with the purchase of those plans.

Submitted Applications

Applications are counted as submitted when the applicant completes the application and either clicks the submit button on our website or provides verbal authorization to submit the application. The applicant may have additional actions to take before the application will be reviewed by the insurance carrier, such as providing additional information. In addition, an applicant may submit more than one application.

- (1) Medicare-related health insurance applications submitted on our website or through our customer care center during the period, including Medicare Advantage, Medicare Part D prescription drug and Medicare Supplement plans.
- (2) Major medical Individual and Family plan ("IFP") health insurance applications submitted on our website during the period. An applicant may submit more than one application. We define our IFP offerings as major medical individual and family health insurance plans, which does not include Medicare-related, small business or ancillary plans.
- (3) Ancillary Plans consists primarily of short-term, dental and vision insurance plans submitted on our website during the period.
- (4) Applications for small business health insurance applications are counted as submitted when the applicant completes the application, the employees complete their applications, the applicant submits the application to us and we submit the application to the carrier.

Estimated Membership

Estimated membership represents the estimated number of members active as of the date indicated based on the number of members for whom we have received or applied a commission payment during the month of estimation.

(1) For Medicare-related health insurance plans, we take the sum of (i) the number of members for whom we have received or applied a commission payment for a month that is up to two months prior to the date of estimation (after reducing that number using historical experience for assumed member cancellations over the period being estimated); and (ii) the number of approved members over that period (after reducing that number using historical experience for an assumed number of members who do not accept their approved policy from the same month of the previous year and for estimated member cancellations through the date of the estimate). To the extent we determine we have received substantially all of the commission payments related to a given month during the period being estimated, we will take the number of members for whom we have received or applied a commission payment during the month of estimation. Estimated number of members active on Medicare-related health insurance as of the date indicated based on the number of members for whom we have received or applied a commission payment during the month of estimation.

(2) To estimate the number of members on Individual and Family health insurance plans, we take the sum of (i) the number of IFP members for whom we have received or applied a commission payment for a month that is up to six months prior to the date of estimation after reducing that number using historical experience for assumed member cancellations over the period being estimated; and (ii) the number of approved members over that period (after reducing that number by the percentage of members who do not accept their approved policy from the same month of the previous year for estimated member cancellations through the date of the estimate). To the extent we determine we have received substantially all of the commission payments related to a given month during the period being estimated, we will take the number of members for whom we have received or applied a commission payment during the month of estimation. For IFP health insurance plans, a member who purchases and is active on multiple standalone insurance plans will be counted as a member more than once. For example, a member who is active on both an individual and family health insurance plan and a standalone dental plan will be counted as two continuing members.

SUMMARY OF SELECTED METRICS
ESTIMATED MEMBERSHIP (Continued)
(Unaudited)

- (3) For ancillary health insurance plans (such as short-term, dental and vision insurance), we take the sum of (i) the number of members for whom we have received or applied a commission payment for a month that is up to three months prior to the date of estimation (after reducing that number using historical experience for assumed member cancellations over the period being estimated); and (ii) the number of approved members over that period (after reducing that number using historical experience for an assumed number of members who do not accept their approved policy from the same month of the previous year and for estimated member cancellations through the date of the estimate). To the extent we determine we have received substantially all of the commission payments related to a given month during the period being estimated, we will take the number of members for whom we have received or applied a commission payment during the month of estimation. The one to three-month period varies by insurance product and is largely dependent upon the timeliness of commission payments and related reporting from the related carriers.
- (4) For small business health insurance plans, we estimate the number of members using the number of initial members at the time the group is approved, and we update this number for changes in membership if such changes are reported to us by the group or carrier in the period it is reported. However, groups generally notify the carrier directly of policy cancellations and increases or decreases in group size without informing us. Health insurance carriers often do not communicate policy cancellation information or group size changes to us. We often are made aware of policy cancellations and group size changes at the time of annual renewal and update our membership statistics accordingly in the period they are reported.

Health insurance carriers bill and collect insurance premiums paid by our members. The carriers do not report to us the number of members that we have as of a given date. The majority of our members who terminate their policies do so by discontinuing their premium payments to the carrier and do not inform us of the cancellation. Also, some of our members pay their premiums less frequently than monthly. Given the number of months required to observe non-payment of commissions in order to confirm cancellations, we estimate the number of members who are active on insurance policies as of a specified date.

After we have estimated membership for a period, we may receive information from health insurance carriers that would have impacted the estimate if we had received the information prior to the date of estimation. We may receive commission payments or other information that indicates that a member who was not included in our estimates for a prior period was in fact an active member at that time, or that a member who was included in our estimates was in fact not an active member of ours. For instance, we reconcile information carriers provide to us and may determine that we were not historically paid commissions owed to us, which would cause us to have underestimated membership. Conversely, carriers may require us to return commission payments paid in a prior period due to policy cancellations for members we previously estimated as being active. We do not update our estimated membership numbers reported in previous periods. Instead, we reflect updated information regarding our historical membership in the membership estimate for the current period. As a result of the delay in our receipt of information from insurance carriers, actual trends in our membership are most discernible over periods longer than from one quarter to the next. As a result of the delay we experience in receiving information about our membership, it is difficult for us to determine with any certainty the impact of current conditions on our membership retention. Health care reform and its impacts as well as other factors could cause the assumptions and estimates that we make in connection with estimating our membership to be inaccurate, which would cause our membership estimates to be inaccurate.

Constrained Lifetime Value of Commissions Per Approved Member

- (1) Constrained lifetime value (“LTV”) of commissions per approved member represents commissions estimated to be collected over the estimated life of an approved member’s policy after applying constraints in accordance with our revenue recognition policy. The estimate is driven by multiple factors, including but not limited to, contracted commission rates, carrier mix, expected policy churn and applied constraints. These factors may result in varying values from period to period.
- (2) For Small Business, the amount represents the estimated commissions we expect to collect from the plan over the following 12-months. The estimate is driven by multiple factors, including but not limited to, contracted commission rates, carrier mix, expected policy churn and applied constraints. These factors may result in varying values from period to period.

Constraints on Lifetime Value of Commissions Per Approved Member

Constraints are applied to derive the constrained lifetime value ("LTV") of commissions per approved member for revenue recognition in accordance with our revenue recognition policy. The constraints are applied to help ensure that commissions estimated to be collected over the estimated life of an approved member's plan are recognized as revenue only to the extent that it is probable that a significant reversal in the amount of cumulative revenue recognized will not occur when the uncertainty associated with future commissions receivable from the plan is subsequently resolved. We evaluate constraints on an annual basis for factors affecting our estimate of LTV of commissions per approved member and apply management judgment to determine the constraints based on current trends impacting our business.
